Re: Licensing Agreement

Dear Mr. Volot

Pratt & Whitney Tool Support Services is pleased to announce Dedienne Aerospace as an approved licensed supplier for Pratt & Whitney's Commercial Engines transportation systems. We are pleased to now offer an additional supplier who can provide our customers with superior products and support.

I am looking forward to Dedienne developing transportation systems that meet both Pratt & Whitney's and our customers' expectations as defined in the license agreement.

Regards,

*John Lemire*
