

DEDIENNE SIGNS LONG-TERM AGREEMENT WITH PRATT & WHITNEY FOR PW1100 GTF™ ENGINE STANDS

April 2018, Orlando, Florida, USA - Pratt & Whitney announced it has entered into strategic long-term agreement with Dediemme Aerospace for PW1100 Geared Turbofan (GTF) engine stands at the MRO Americas Conference in Orlando, Florida. This long-term agreement will further expand the Aftermarket supply chain and mark the first time that Pratt & Whitney's Aftermarket organization has entered into a long-term agreement with an engine stand supplier.

"It is imperative for us to set-up a worldwide supplier network that can guarantee the capacity we will need to meet the needs of our customers," said Heather Walton, senior director, Aftermarket Supply Chain. *"These long-term agreements, which include competitive KPIs for turnaround times and cost recovery, will help Pratt & Whitney support airline customers, programs and aftermarket facilities."*

"This is another step forward for Dediemme Aerospace and we are very proud to have been selected by Pratt & Whitney. We are now a part of this fantastic Geared Turbofan journey. The customer will benefit from our expertise and our ability to deliver important aerospace programs," said Karel Volot, President & CEO of Dediemme Aerospace LLC.

Under the five-year agreement, Dediemme Aerospace, who specializes in aerospace maintenance tooling for civil and defense markets, will provide engine stands for the PW1100G-JM engine.

In addition to the Long Term Agreement, Dediemme Aerospace and Pratt & Whitney are happy to announce a license agreement for PW1100 GTF engine stands to support operations for all airline customers effective immediately.
